**Subject:** RE: Niagara Falls Boulevard Site

Eric,

Thank you for your confidence in the GES crew on site and to their work that has been accomplished. In every case I strive to maintain crew continuity and it is only under extraordinary conditions that I have to make the decision to rotate someone out to another site. I understand the complexities of the Niagara Falls Boulevard site and appreciate that this continuity needs to be held as much as possible.

In the case of Kevin Shaver as the RM I know he has been instrumental in setting up the site and to manage the situations that have arisen over the course of the project. But there may be the need to rotate Kevin off site for a period of time as there is a task order that is coming up that only Kevin has the full insight to all the history and the scope of work that has to be accomplished. I don't see this site taking a great amount of time to accomplish and will rotate Kevin back to Niagara Falls as soon as it is possible. In the meantime, Kevin's replacement will be Frank Rodriguez who will be on site from the time of remobilization to become acquainted and knowledgeable in all the aspects of the site. In doing this the transition will be seamless and you will have a knowledgeable RM assigned to the site that you can find the confidence in performing at the same level as Kevin does.

If there is a concern with this please let me know and we can discuss.

Respectfully;

Peter Johnson

**Subject:** Niagara Falls Boulevard Site  
**Importance:** High

Good Afternoon Pete:

How is your summer going? I just wanted to tell you what a great job GES personnel have been doing at the Niagara County Sites. Kevin has especially been a key part of our decision making team in the field. I understand the need to rotate staff for personnel reasons as well as health and safety. Moving forward I am hoping to keep the same trained staff whenever possible (Shaver, Crossen, Keller, Brainard). The technical complexities of this Site have really been challenging. We really need to start rolling and making progress during the remaining warm weather months. I am sending a similar message to Weston management.

I hope all is well.

Thanks

Regards,

Eric
